

VOTER

PAT MANGER, CLERMONT COUNTY ENGINEER

will speak to the League on
transportation challenges and choices

January 31, 2012 6:30 pm
Batavia Twp. Community Center, 1535 Clough Pike

The Clermont County Engineer is responsible for the maintenance, repair, widening, resurfacing, and (re)construction of pavements and bridges in the County Highway System. Maintenance duties include traffic control, safety projects, mowing, and snow removal. The County Engineer's Office also serves as an engineering advisor to the Township Trustees for the maintenance, widening and repair of their highways. The County engineer is fully responsible for the bridges on both the county and township highway systems. The County engineer may also be charged with the upkeep of bridges within municipalities, including some of the State Highway System. He performs the annual inspection and evaluation of the condition and load carrying capacity of each bridge. The statues regulating this duty require a uniform method of procedure and record-keeping.

The County Engineer participates in county and regional planning commissions and provides tax map drafting services for the County. In unincorporated areas, he may also be involved in the establishment and maintenance of petitioned and assessed ditches, sidewalks, and even county airports.

The public is cordially invited to attend.

TIDBITS FROM HISTORY

Victoria Claflin Woodhull of Homer, Ohio, though she could not vote, was the first woman to run for president of the United States and probably one of the most controversial people of her time. She announced her candidacy on April 2, 1870, and argued that women's suffrage was already protected by the Constitution because the existing amendments about voting and citizenship did not specify gender. Therefore, women, as citizens, should be allowed to vote. She advocated for things that we take for granted today such as the 8-hour workday, graduated income tax, social welfare programs, and profit sharing.

LWVCC HELPS FOSTER CHILDREN

Each year, Clermont County Children's Protective Services reaches out to the community for assistance in providing Christmas gifts to the children in their custody, which currently number over 300. For the third year, our Clermont County League decided to ask members to contribute to this very worthy cause. This year, we requested the information for two children, because we collected more funds than necessary for the gifts for the one child we sponsored last year. The League was assigned two young girls, one 2 months old and the other 3 years old. The wish list for these girls included basics like clothes, coats, boots and shoes, developmental toys for the baby, and "princess" toys for the older girl. Through the generosity of our members, all the requested items were purchased. We know that the 3 year old will be happy with all the Disney princess items she received, since the gift buyer got assistance from another shopper at the store who just happened to be the grandmother of a 3 year old who loves all the princess toys! Thanks to all the League members who contributed - there were some smiling faces on Christmas morning, and some warmly dressed young girls this winter, because you cared!
